

Federal Election Commission  
999 E. Street NW  
Washington DC 20463  
Attention: Sally Bacon, Senior Campaign Finance Analyst

Committee Identification Number: C00243428

Dear Ms. Bacon:

This response is submitted pursuant to the Request for Information dated November 2, 2006 regarding the October Quarterly Report covering the period July 1, 2006 through September 30, 2006. In conjunction with this statement, the Committee has filed an amendment to adjust the specific itemized receipts to resolve the discrepancies in the Committee's aggregate election cycle-to-date totals.

The Committee will specifically address the receipt dated 7/14/06 in the amount of \$1000 from the Johnson & Johnson Employees' Good Government Fund, Committee ID C00010983. The aggregate cycle-to-date total reflects \$0; however, it should reflect \$1000 for the 2006 election cycle. I have been informed that this discrepancy is the result of a reporting error dated 11/5/04. The aforementioned PAC, previously contributed \$1000 on 10/26/04 which was attributed to the General 2004 election cycle. However, the bank returned the check and it was erroneously reported as a refund on 11/5/04 which carried it the 2006 election cycle. Consequently, it negated the 7/14/06 receipt for the 2006 General election cycle and brought the aggregate cycle-to-date total to zero.

Per your direction, rather than amend that previous report, I am attesting that the aggregate should reflect \$1000 for the 2006 election cycle. I have conferred with you and technical support for proper reporting of split transactions that affect election cycle aggregate totals and do not anticipate further discrepancies regarding this issue. It is my hope that this statement fully addresses this issue.

Respectfully yours,  
Christina Morales, Treasurer
